

Meet Tiger

Tiger's story is not an uncommon story at the three SB County Animal Shelters. Pet overpopulation and an over-abundance of unwanted animals is a huge problem in our community. Tiger was one of four tiny kittens brought to the shelter without a mother to care for him. Once taken into the shelter, 3 week old Tiger was cared for by a foster family until he was of adoptable age at 8 weeks old. He has now been adopted into a loving home. Very young animals cannot receive the proper attention in the shelter setting. Foster families allows young animals the time to grow, socialize, feel the love and nurturing of another being, and the right to life. For more information contact: 805-934-6981
